1. Log on to the ConnectED platform: www.connected.mcgraw-hill.com using the demo user name and password provided and select the teacher edition for your grade level. This is your home page.
2. The light and dark blue drop down menu allows you to select the unit and lesson of study.
3. The Lesson Resources carousel on the right side makes accessing lesson resources easy from the home screen.
4. The Student Lesson button above the lesson resources shows the lesson from the student perspective.

5. Once in the student lesson, explore the lesson tools.
6. The baseball cap is a reading coach that modifies the informational text to an approaching level.
7. Digital resources that connect to the lesson are available on the right hand side.

8. The menu on the top left gives access to all of the Networks digital resources. Click on the Lesson Plan tab to see the online Teacher Edition.
9. Once you select the **Unit** and **Lesson**, you can open each blade to see the online Teacher Edition. You can expand all of the blades or collapse them to see more information at a time.

10. When each blade is opened, the digital resources connected to each piece of the lesson appear on the right hand side for easy access at point of use.

11. The Launch **Presentation** button will bring up a full digital presentation of the lesson. The presentation exists for each lesson and has every asset needed to teach the lesson. Each presentation is customizable simply by clicking on the **Customize** button. Gears will appear at the end of each blade so teachers can add, edit or remove resources from the lesson presentation.

**DIGITAL OVERVIEW**

**KINDERGARTEN-GRADE 4**
12. Once in the virtual lesson presentation, teachers can see all of the digital assets in the quick view tray at the bottom of the screen.

13. To view the online assessment center, select **Assessment** in the drop down menu. The eAssessment system allows you to access all program assessments. You can also create customized assessments through eAssessment.

14. The **Resources** tab will allow you to search for program resources unit by unit or lesson by lesson using the drop down menu. You can filter your search for resources by type of resource on the left hand side of your screen. Select the gold star on the resources used most often. They will appear in the Favorites tab.
15. The **Class Management** tab is where teachers can create a class, add students’ names and assign students a user name and password. More information on adding students’ names to the ConnectED database can be found on the ConnectED home screen under the Import Students tab.

16. Once you have created a class, select the **Assignment Tracker** tab to create and send assignments to the students in your class.

17. The last tab in the drop down menu is **Leveled Readers**. This leveled reader library gives you access to hundreds of McGraw-Hill leveled readers. Search by the topic of your choice to access leveled readers from many of McGraw-Hill programs. The leveled readers can be read online, have an audio feature and can be printed.
